KARAIKAL

COAT OF ARMS

The Sun, the ultimate source of all energy on the earth rising from the background stands for power, progress and radiance.

The full blown Lotus growing out of the lake symbolises the emergence of the mind and its triumph over matter after gradual evolution and development.

The Elephant stands for strength, majesty, poise and tolerance, the qualities which go to make a balanced personality.

The mystery planet Saturn spinning in the vast expanse of space and time to the accompaniment of speeding stars and nebulae symbolises the eternal harmony, order and system manifesting the universe.

The Atomic Circles symbolise the advancement of Science which lights up the flame of true knowledge, dispelling the darkness of ignorance and spreading enlightenment around.

The avowed motto of the institution is to discipline the human mind ultimately leading to inner freedom and harmony. The real greatness of a person depends on his mental make-up, its stature and poise as embodied in the line picked from Thirukkural.

MENTOR

In nineteenth-century graduate education, the student-professor relationship looked a lot like the worst kind of apprenticeship: the price of admission to the craft was to do the bidding of the master. Today, that model is as obsolete as writing a dissertation on a typewriter. The landscape of twenty first century graduate education is much different, and so is its population. The quantity of knowledge has exploded, the boundaries between disciplines have blurred, and advances in both the resources and methods available for study and research fuel both phenomena. Another key development has been the vastly larger pool from which the people engaged in graduate teaching, learning and research are increasingly drawn, which has helped drive a concomitant expansion of appropriate areas for scholarly investigation. Those people who were rarely included in higher education in the nineteenth century are in the majority now. They bring invigorating experiences and perspectives to the enterprise, but they also face challenges. All these factors have necessitated both a broader, more sophisticated notion of mentoring, and a heightened recognition of its vital role in the preparation of the next generation's intellectual leaders, both within and beyond the academy.

Consider this multi-faceted definition of mentors as people who:

1. Take an interest in developing another person's career and well-being.
2. Have an interpersonal as well as a professional relationship with those whom they mentor.
3. Advance the person's academic and professional goals in directions most desired by the individual.
4. Tailor mentoring styles and content to the individual, including adjustments due to differences in culture, ethnicity, gender and so on.

Some faculty limit the responsibilities of mentoring to simply discharging their role as teacher and advisor. While assigned advisors or tutors can certainly be mentors, and often are, effective mentoring requires playing a more expansive role in the development of a future colleague. The role of advisor usually is limited to guiding academic progress. The role of mentor is centered on a commitment to advancing the student's career through an interpersonal engagement that facilitates sharing guidance, experience and expertise.

CAREER GUIDANCE AND COUNSELLING

It is a comprehensive, developmental program designed to assist individuals in making and implementing informed educational and occupational choices. A career guidance and counseling program develops an individual's competencies in self-knowledge, educational and occupational exploration, and career planning. Career guidance and counseling programs help individuals acquire the knowledge, skills, and experience necessary to identify options, explore alternatives and succeed in society. These programs better prepare individuals for the changing workplace of the 21st century by:

1. teaching labor market changes and complexity of the workplace
2. broadening knowledge, skills, and abilities
3. improving decision making skills

4. increasing self-esteem and motivation
5. building interpersonal effectiveness
6. maximizing career opportunities
7. improving employment marketability and opportunities
8. promoting effective job placement
9. strengthening employer relations
10. A planned sequence of activities and experiences to achieve specific competencies such as self-appraisal, decision making, goal setting, and career planning
11. Accountability (outcome oriented) and program improvement (based on results of process/outcome evaluations)
12. Qualified leadership
13. Effective management needed to support comprehensive career guidance programs
14. A team approach where certified counselors are central to the program
15. Adequate facilities, materials, resources
16. Strong professional development activities so counselors can regularly update their professional knowledge and skills
17. Different approaches to deliver the program such as outreach, assessment, counseling, curriculum, program and job placement, follow-up, consultation, referral

PLACEMENT CELL

The Training and Placement Cell: Empowering Student Careers

The Training and Placement Cell (TPC) at our college is dedicated to enhancing the employability and skills of undergraduate students. It organizes a variety of activities, including expert-led competitive exam preparation classes and skill development programs sponsored by Barclays Bank and Unnathi Foundations. The IBM Certification Program

is also available to students from various streams. In the academic year 2023-24, notable programs included the IBM Skill Development Program held from 5th to 7th September 2023, in collaboration with the District Administration of Karaikal, and the NASSCOM Certified Financial Fraud Investigation Program, which ran from October 2023 to February 2024.

Placement activities were also a significant focus for TPC, highlighted by the Mega Job Fair 2023 on 2nd December, where 308 candidates received job offers. Subsequent campus recruitment drives, including one with Suzuki APP Motors on 15th February 2024 and an online recruitment drive by QSPIDER Ltd. on 22nd February 2024, resulted in numerous students securing positions. Additionally, TPC organized career guidance sessions, confidence-building programs, and online placement drives to support students' transition into the workforce, demonstrating a strong commitment to their overall career development.
